# Thriveni Earthmovers

A Global Mining Company which believes in Inclusive Growth

- Sleipner
- Simulator Training
- Quick Dispatch System
- Fleet Management System

## APMDC Baryte Excavation Project

- APMDC owns one of the largest Barytes deposit - 50 Mt reserves
- Presence of Thriveni in APMDC is from March 2015
- Ramped up production to EC capacity of 3 Mtpa
- Today APMDC is one of the leading Baryte producers in world
- Open cast - +200 m deep. Deepest operation for Thriveni
- First company to use sleipner technology among southeast Asia.
- Fleet Management System implemented in Mangampet Barytes project.

THRIVENI EARTHMOVERS PVT LTD, C/o APMDC Mangampet Barytes Mines, Mangampeta (Village), Near Rly odur, Obulavaripalli (Mandal), kadapa Dist. Andhra Pradesh-516101.

## Complete Blasting Solution

Graphical representation of Blasting & Vibration expertise services

### 3 Layer Shock-Tube

"Supremedet S" Shock Tube Detonator has many unique features :

- o India's first & only shock-tube having three layers.
- o Innermost layer is having good adhesive properties, middle layer provides tensile & radial strength and outer layer is having good abrasion resistance & UV protection.
- o Inner coating of HMX provides reliable initiation.
- o Accurate delays provide help in designing the blast & controlling vibration.
- o Available in wide range of lengths & delay timing for down the hole & surface unit.
- o Suitable for tough mining conditions & for various application in quarry & construction blasting.

### Electronic Blasting System

Electronic Blasting system consist of following :

- o Programmable electronic detonator *MICRODET-I*. The unit consists of
- o Microprocessor based electronic circuit which controls the delay timing.
- o Each *MICRODET-I* unit has unique ID number and can be assigned any delay timing up to 10000 ms at an interval of 1 ms.
- o The system consist of Looger for assigning the timing to *MICRODET-I*, Tester for testing the circuit & Blaster for Firing the Electronic detonators.
- o The accurate timing of *MICRODET-I* helps in Controlling vibration, Frequency channelling, Increasing blast size, Improving fragmentation, Wall control, Cast blasting etc

### Bulk Explosives Delivery System

- o The PID controller i.e proportional-integral-derivative controller automatically adjusts the speed to reach the desired parameter viz. Flow of Gassing Solution, PPAN Feed Rate, Hose Lube Flow etc.
- o Gassing Solution rate can be Temperature based.
- o Gassing Solution rate can be varied based on different Pre-determined Formulation to suit the Blast Hole.
- o Alarms are provided in-case the system pressure/temperature exceeds.Cut Off at Maximum Set Pressure/ Temperature.
- o Errors in any part of the system can be easily identified from the HMI panel. Any safety non-operating parameter will give a red signal at that point.

*With Best Compliments From:*

TRANSIT SURVEYS (TS) is a leading and professionally managed Environmental, Mine Planning and Surveying consultants, established in 1996 for mining and mineral based industries, a Recognized Qualified Person (RQP) from Indian Bureau of Mines, having its corporate office at Ballari, Karnataka and provisionally accredited as EIA consultant organization for mining of minerals (open cast) by NABET, QCI. It has state of art Environmental Laboratory under one roof, namely, COSMO CONSCIOUS RESEARCH LABORATORY (CCRL) an Environmental Laboratory Recognised by MoEF&CC, NABL accredited and OHSAS certified, which under takes Environmental Monitoring works, for parameters like Air, Water, Noise, Soil and Weather through an expert team of technically and scientifically well versed personnel and with an inbuilt modern instrumentation facilities.

### Our services

#### **TRANSIT SURVEYS**

Environment, Mine Planning & Surveying Consultants

**C.D. Prabhakar Reddy, Chief Executive**

- Preparation of EIA/EMP for open-cast mines, & obtaining Environmental Clearance,
- Compliance to the conditions laid down in the Environmental Clearance,
- Preparation of Forest Proposals & obtaining Forest Clearances,
- Preparation of Mining Plan/Review of Mining Plan/ Final Mine Closure Plan & Quarry Plan
- Periodic mine survey, regional geological surveys, & preparation of statutory plans,
- Topographical surveys, DEMs/DTMs., DSMs, 3D surfaces, high precision surveys to generate contours, Volumetric Calculations,
- Geological mapping, exploration, core drilling/RC drilling, geological logging, sampling & analysis,
- Study of Mineralogical, bulk density & recovery factor for various minerals.
- Ore body modeling, reserve estimation, mine planning & designing, assessment of the operational & virgin deposits, mine evaluation,
- Techno feasibility study for mining industries & ore beneficiation plants,
- Geotechnical studies slope stability & hydrogeology, CFE & CFO from State Pollution Control Board & Environmental Audit reports.

#### **COSMO CONSCIOUS RESEARCH LABORATORY**

An Environmental Laboratory Recognised by MoEF&CC, New Delhi.  
Accredited by NABL as per ISO/IEC 17025:2005 and OHSAS certified

## POLYTRON PRODUCTS

FEEL THE DIFFERENCE

### TODAY'S MOST TECHNOLOGICALLY ADVANCED METAL TREATMENT

Polytron Products Are The Most Advanced Lubricants In The World. Designed By American Scientists. It Is A Scientific Break Through In Lubrication Technology. Polytron Is A Penetrating Lubricant That Treats The Metal Friction Surface Reducing Wear And Tear Of Any Machine Significantly.

### APPLICATIONS

- Heavy Machines And Tools • Industrial And Automotive Gear Boxes.
- Differentials And Bearings. • Pumps, Air Compressors And HVAC.

### BENEFITS

- Reduces Maintenance Costs Up To 60%
- Decreases Wear of Engine / Equipment Up To 95%
- Decreases Operating Temperature And Noise / Vibrations
- Protects Engine / Equipment Across Wider Range of Temperatures
- Provides Temporary Protection To Engine / Equipment In The Event Of Oil Loss
- Maximizes Engines Compression, Power / Torque & Fuel Efficiency
- Keeps The Surface Clean & Extends Maintenance Intervals Up To 2-4 Times.
- Neutralize Water In Fuel Tanks, Lines And Poor Quality Fuel

### POLYTRON METAL TREATMENT CONCENTRATE

Polytron MTC Is A Unique Petroleum Based Formula That Is Compatible With All Types Of Engine Oils, Gear Oil And Other Industrial Lubricant Oils. MTC Treats The Metal Friction Surface By Penetrating The Metal Surface And Concentrating Original Metal Surface Into A New Polished Like Surface With Very Low Friction Into Quotient. And 100 Times More Wear Like As A Result It Dramatically Resists Wear And Tear And Improves Oil And Oil Filter Changing Intervals Of The Equipment/Machine/Engine.

### POLYTRON PENETRATING LUBRICANT

Polytron Penetrating Lubricant Contains Metal Treatment Concentrate And Is Scientifically Blended To Be The Most Effective Whenever Rust, Corrosion Or Drag Is A Factor. Polytron Penetrating Lubricant Not Only Penetrates Through Extreme Rust And Corrosion, It Also Treats The Metal Surface To Reduce Friction And Wear. Use Of This Products Provides For Long Lasting and Smooth Operation Of Any Metal Mechanism.

### POLYTRON FUEL CONDITIONER

Polytron Ultra Performance Fuel Conditioner For Petrol And Diesel Fuels Is Scientifically Designed To Improve Combustion, Cleans And Lubricates The Working Parts Of The Fuel System And The Upper Part Of The Engine. Polytron Fuel Conditioner Dissolve And Removes Carbon Deposits And Prevents Future Harmful Build-up. It Also Improves Mileage And Overall Engine Performance.

### POLYTRON EP-2 LITHIUM COMPLEX GREASE

Polytron EP-2 Lithium Complex Grease Is Formulated with High Quality Base Oils And Lithium Complex Soap. The Natural Oxidation Stability Of This Formulation Is Enhanced By Effective Oxidation Inhibitors. Polytron Ep-2 Lithium Complex Grease Combines High Temperature Stability, Extreme Pressure And Outstanding Anti-wear Properties With Excellent Water Resistance And Rust and Corrosion Protection. Mechanical Stability, Which Minimized Softening Under Severe Shearing Conditions, Is Also Exhibited.
