THE ANDHRA PRADESH MINERAL DEVELOPMENT CORPORATION LIMITED

Corporate Office, 294 / 1D, Tadigadapa to Enikepadu 100 Ft. Road, Kanuru Village, Penamaluru Mandal, Vijayawada - 521137 , Phone : 0866-2429999, Email: info@apmdc.ap.gov.in

Barytes

The Mangampet Barytes deposit in Kadappa district is the single largest deposit in the world. With 98% of the Indian Barytes being produced by APMDC, Indian Barytes are essentially APMDC Barytes. The Corporation produces 3 MnT of Barytes per annum with a planned increase in production capacity to 5 MnT.

Black Galaxy Granite

Black Galaxy Granite deposits occurring in Cheemakurthy, Prakasham district is a unique variety and generates significant demand in the international and domestic market for use as a decorative stone. The Corporation is currently producing Black Galaxy Granite through the Joint venture route.

Ball Clay

A major raw material for ceramic and refractory industries - Ball clay is being produced by the Corporation in Dwaraka Tirumala village in West Godavari district through Raising cum sale contracts.

Bauxite

Bauxite is the major raw material for the production of Alumina and Aluminium. Bauxite deposits occur in the Vishakhapatnam and East Godavari districts of Andhra Pradesh.

Heavy Mineral Beach Sands

982 km long coastal line of Andhra Pradesh contains heavy mineral beach sands comprising of national strategic importance minerals such as Garnet, Ilmenite, Rutile, Leucosene, Zircon, Silliminite and Monazite. The Corporation intends to exploit these minerals and establish Value Addition plants through Joint venture route.

Coal

The Corporation has been allotted two Coal blocks in Suliari, Madhya Pradesh and Madanpur South, Chattisgarh having estimated gross reserves of 300 million tonnes. The coal blocks will have a production capacity of 10 MnT per annum once completely operationalized.

Iron Ore

The mining leases over 957 Ha in Prakasham district possesses reserves of over 80 million tonnes and The Corporation intends to establish mining, beneficiation and palletization plants through Joint venture route.

Other Minerals

Additionally, the Corporation also possesses and operates mining leases for the following minerals:

- Silica sand
- Calcite
- Blue and color granite
- Limestone

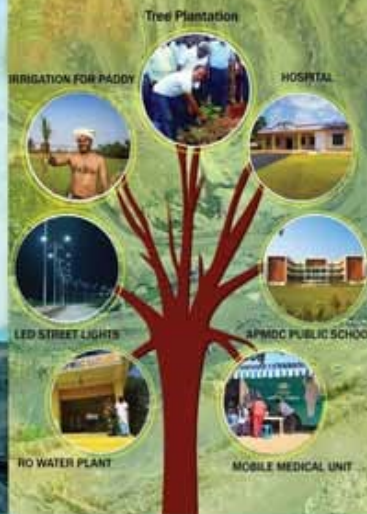

VISION STATEMENT

To become the most valued Company for sustainable development of minerals with commitment for environmental protection and safety, and to become the leader in mining by optimal utilization of resources, creating added value and with sustainable growth.

MISSION STATEMENT

Exploration and exploitation of mineral resources with due emphasis on environment & safety and development & promotion of mineral based industries adopting innovative technology and advanced skills for accelerated and sustainable growth.

APMDC - Foundation committed to community development.

IN A NATION THAT
BUILDS LEGACIES,
WHAT WILL YOU
BUILD WITH?

Birla.A1 StrongCrete is engineered for concrete applications such as in foundation, beams, columns and slabs.

HIGHER STRENGTH

Higher Early Strength

Higher Ultimate Strength

Ultimate Strength of Concrete

FASTER SETTING TIME

The advertisement features three bags of KCP Cement on the left side, arranged in a row and slightly overlapping. Each bag is white with black text and a logo. The bags are labeled 'KCP CEMENT' and 'ORDINARY PORTLAND CEMENT'. The central bag is the largest and most prominent, showing the 'KCP' logo and the text 'THE KCP LIMITED'. To the right of the bags, the words 'CONCRETE CEMENT' are written in a bold, italicized font. Below this, the 'KCP' logo is displayed in a large, bold font, with 'CEMENT' written in a smaller font below it. At the bottom right, the text 'Since 1958' is written in a serif font. In the top right corner, there is a small grid logo with the letters 'kcp' inside it, and the word 'CEMENT' written below it. The background is a dark grey gradient with a white curved line on the left side.

THE SYMBOL OF SUPREME STRENGTH

Parasakti Cement is a professionally managed organization that can produce upto 1.7 Million Tons of cement per annum. We manufacture and deliver all grades of high strength cement with consistency, making us indispensable to customers who demand both high performance and quick execution.

Designed using the most advanced and efficient dry process manufacturing and grinding technology, we ensure that every bag of cement adheres to the highest quality with consistent performance.

Our Quality Management System established in accordance with DNV-GL ISO 9001:2015 Certification standards makes our high quality products vital for key infrastructure projects like 'Nagarjuna Sagar Tail Pond Dam Construction'.

Our vast network of dealers and an efficient distribution system enables a prompt delivery to our customers across Andhra Pradesh, Telangana, Tamil Nadu, Karnataka and Maharashtra. For over a decade, Parasakti Cement has been used to build infrastructure-related and residential projects across India.

For customers seeking consistent quality, high strength and cement for special applications, Parasakti Cement is a partner you can rely on.
