Members recommended moving towards digital/soft-copy distribution for souvenirs, printing only limited high-quality hard copies for VIPs/dignitaries to curb the ₹14.0 Lakh printing cost. The decision on number of copies to be printed will be taken in the executive body meeting.

Finalization of safety theme

Theme for Mine Safety Week 2026: The Theme for Mine Safety Week 2026 will be finalized in coming Executive meeting. It is requested to submit "Theme for 2026" on email / What's-app before 5th October 2026.

Publicity and Propaganda:

Different competitions to be held for the year 2026 will be decided in the executive body meeting.

Trade Tests:

Instead of individual host mines conducting trade tests, all trade tests will be conducted at 3 designated Regional VT Centers across the three zones.

Judges for the trade tests will be other than the zone of the test center.

Participating companies shall bear candidates travel expenses and accommodation. Meals, local conveyance from the nearest bus stop shall be arranged by MSPA.

Inspection Team Composition & HOD Participation:

Extensive debate took place regarding the composition of inspection teams and the role of Head of Departments (HODs)

All DMSs emphasized the importance of participation of HODs in safety week inspections and proposed HODs shall be included in the safety week -2026 inspection team. They also advised the Mine Managements to spare HODs for safety week inspections.

Regrouping of Mines based on production:

Members proposed to revise the grouping of mines since the existing grouping was done 04 years ago. Apex Committee will decide on this in the First Executive Committee meeting.

All member mines are requested to send the production of the years 2023,2024 and 2025 to the mail id : mshahyd2026@gmail.com before 01.10.2026.

Please don't send the production details on WhatsApp.

Discussion on Modalities of the inspection team:

The modalities of inspection team shall be framed in the next executive committee meeting.

Zonal Health Camps for Unorganized Mining Labour:

Directors proposed to organise health camps in each zone to the workmen of the small/manual mines for which the members of the house accepted.

Mobile VT Centre:

Introduction of mobile VT center was discussed to provide vocational training to the unorganized quarry workers across interior districts. Since the Mobile VTC costs more than 40 lakhs and the current fund balance is insufficient, the house proposed to extend the services of the existing 05 VT Centers to impart training to the workmen.

MSPA shall establish digital platforms (Facebook, X/Twitter, and specialized portals) to publish safety achievements, inspections, and mine celebrations widely.

Keynote Addresses

Address by Sri Ch. Seetharamulu, Vice Chairman, MSPA-2026

Sri Ch. Seetharamulu acknowledged that the regular interactions with DGMS, observance of Mines Safety Weeks, and conduct of zonal-level inspections and audits over the past decade have significantly enhanced safety awareness, professional presentation, and communication skills among mining personnel.

He emphasized that mining personnel form the fundamental backbone of the entire cement manufacturing value chain and should perform their responsibilities with pride, professionalism, and confidence.

He further observed that modern opencast limestone mines have made considerable progress in maintaining high standards of safety culture and operational performance.

Address by Sri Bala Giridhar, Chairman, MSPA-2026

Sri Bala Giridhar appreciated the managements of limestone mines under the Hyderabad and Nellore jurisdictions for their continued adherence to DGMS safety requirements and for maintaining systematic compliance with statutory provisions.

He commended the sense of accountability demonstrated by mining personnel in ensuring safe mining operations and optimal utilisation of mining equipment.

He urged all the newly constituted committees to extend wholehearted and proactive cooperation and coordination for the successful conduct of the Mines Safety Week celebrations during 2026.

Address by Sri Venugopal Swamy Kadem, Co-Convener, MSPA-2026 & DMS, Hyderabad Region-III

Sri Venugopal Swamy Kadem congratulated the previous host organizations and participating mines for maintaining safe operations with minimal reportable accidents and for their continued commitment towards accident prevention.

He advised the organizing committees to exercise prudence in expenditure by minimizing avoidable ceremonial expenses and, wherever feasible, utilizing the available resources for the welfare of the mining fraternity and for promoting technical development and safety initiatives.

Address by Dr. Satyanarayana Inumula, DMS, Hyderabad Region-I

Dr. Satyanarayana Inumula appreciated Kesoram Cement Works for successfully organizing the preceding Mines Safety Week celebrations and associated convention.

He extended his full support to Zuari Cement Limited, the principal host for the MSPA-2026 celebrations, and wished the organization success in conducting the programme.

He emphasized the need to extend Mobile Vocational Training Centre (VTC) programmes and specialized medical examination camps to workers engaged in the unorganized and peripheral mining sectors, thereby bringing a larger section of the mining workforce under structured safety, training, and occupational health initiatives.

Address by Sri Raj Kishore Singh, Convener, MSPA-2026 & DMS, Nellore Region

Sri Raj Kishore Singh emphasized that mine safety measures should not remain confined to the leasehold area alone but should also ensure the safety and well-being of the surrounding villages and habitations.

He stressed the need for effective engineering and operational controls to minimize dust generation and propagation, ground vibrations, noise, and fly-rock arising from blasting operations, as these factors have a direct bearing on the safety and concerns of nearby communities.

He also encouraged mining organizations to explore fair and appropriate employment opportunities for eligible persons from surrounding villages, wherever feasible, as part of sustained community engagement and harmonious relations with local stakeholders.

Address by Dr. Sagesh Kumar, DMS, Hyderabad Region-II

Dr. Sagesh Kumar appreciated the previous host organization for successfully conducting the State-level Mines Safety Week function in an effective and organized manner.

He recommended that innovative initiatives developed by the Association, including dedicated training centres, mobile training facilities, and other safety-related programmes, be properly documented and, wherever appropriate, replicated in other mining regions.

He advised that MSPA funds be utilized judiciously for activities contributing to the welfare, safety, training, and professional development of the mining fraternity.

He further suggested that the final-day Mines Safety Week function may, wherever practicable, be organized at a mine site to facilitate greater participation of workmen and provide opportunities for the effective utilization and recognition of local talent.
